

# Philanthropic Opportunities in Housing Affordability for Santa Barbara County

## Frequently Asked Questions

### 1. WHY IS HOUSING AFFORDABILITY IMPORTANT?

Stable and affordable housing is essential to Santa Barbara County's collective health, wellbeing, and economic prosperity. Yet, for too many, housing is unaffordable or even unattainable. Efforts to protect, preserve and produce housing supply are essential to address what has become a countywide crisis.

### 2. WHO NEEDS AFFORDABLE HOUSING OPTIONS?

More affordable housing options are needed for everyone in our community: families with small children; graduates of local educational institutions who want to continue to call Santa Barbara County home; those who work in the service industry, grow our food, teach our children and care for our older adults; people who grew up here and want to establish a home near parents and other family members; talent working in one of our county's many nonprofit, government, university, or business sector jobs; and our neighbors who want to age gracefully in their community.

### 3. WHY DID SBF COMMISSION THIS REPORT?

### 4. WHAT IS SBF'S HISTORY IN HOUSING AFFORDABILITY?

As early as 1948, the Foundation's Board of Trustees supported a housing study which examined substandard housing conditions as well as options for emergency and long-term, low-cost housing. In recent years, our efforts have been focused on shelter for our most vulnerable through our Shelter & Safety grantmaking program through which SBF has contributed over \$1.3million from 2019 to 2023.
