The Policy Benchmark performance is derived by multiplying the long-term policy target for each asset class by the index return for each asset class. The Policy Benchmark index returns do not include fees. The performance for each of the Santa Barbara Foundation portfolios is net of all investment related fees (investment management, consulting, and custodian fees). The aggregate fees for the various funds as of 03/31/2024 were 1.05% for the Long-Term Endowment, 0.36% for the Focus Growth Blend, 0.39% for the Focus Income Blend, and 0.85% for the Socially Responsible Blend

## Long Term Endowment

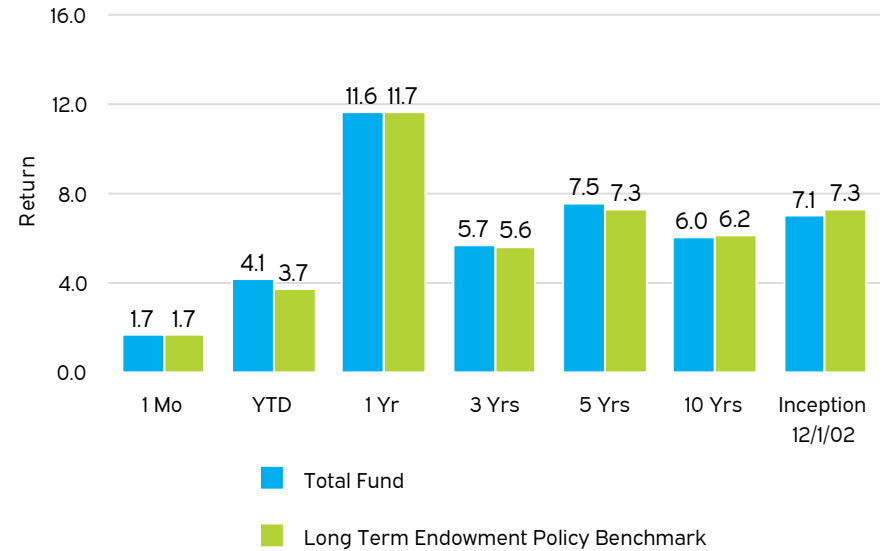

#### Portfolio Objective

The Long Term Endowment Portfolio is designed to achieve a total return equal to or greater than the foundation's spending needs plus inflation. The portfolio is invested in a diversified set of asset classes, including an allocation of 30% to illiquid assets (private equity, real estate, and privately held real assets). The portfolio is structured for long-term grant making, and donors in this portfolio can withdraw funds based on the current spending policy limits only.

## **Focus Growth Blend**

#### Portfolio Objective

The objective of the Focus Growth Blend Portfolio is to provide a prudent level of total return, with an emphasis on capital appreciation. The portfolio has more exposure to equities than fixed income in an effort to provide long term capital growth. Distributions from the portfolio are not restricted by a spending policy. Therefore, the portfolio is invested in 100% liquid assets, including a diversified pool of global equities, fixed income, real assets, and cash. The portfolio has a large allocation to Growth assets, as a result, has a higher expected return and higher volatility than the more conservative Focus Income Blend Portfolio.

## Focus Income Blend

### Portfolio Overview | As of March 31, 2024

#### Portfolio Objective

The Focus Income Blend Portfolio is invested in a diversified mix of liquid assets designed to provide more stable capital appreciation on a total return basis. The portfolio has more exposure to fixed income than equities in an effort to focus on stability over long term returns. The portfolio is more conservative than the other portfolio options and, as a result, has a lower expected return with lower volatility. Distributions from the portfolio by a spending policy limit.

## **Socially Responsible Blend**

#### Portfolio Objective

The Socially Responsible Investment Portfolio seeks to achieve risk-adjusted market rates of return while incorporating environmental, social, and governance (ESG) considerations in the investment decision making process. The pool is designed for capital growth for long-term grantmaking, over capital preservation. The pool is invested in a diversified pool of U.S. and international equities and fixed income securities, all of which are screened for their ESG factors.
